CR,CRI,CRN 1/3/5

- Ⓞ GB Silicone-free cartridge shaft seal
- Ⓞ D Silikonfreie Patronendichtung

These specially cleaned silicone-free cartridge shaft seals are designed for use in special applications.

The shaft seal has been ultrasonically cleaned in isopropyl alcohol and assembled with specially cleaned equipment, with use of gloves and without any use of lubricants.

In order to ensure that the shaft seal functions correctly, it must be compressed and rotated several times in demineralized water before being fitted in the pump head.
See the illustrations on the following pages.

Note: Never dismantle the shaft seal as it would be damaged.

Diese spezialgereinigten silikonfreien Patro-
nendichtungen eignen sich für besondere Ver-
wendungszwecke.

Die Dichtung wurde in Isopropylalkohol ultra-
schallgereinigt und mit Hilfe von spezialgerei-
nigter Ausrüstung, mit Handschuhen und ohne
Verwendung von Schmiermitteln, zusammen-
gebaut.

Um die korrekte Funktion der Dichtung sicher-
zustellen, muß sie mehrmals in demineralisier-
tem Wasser zusammengedrückt und gedreht
werden, bevor sie in das Kopfstück eingesetzt
wird.

Siehe Illustrationen auf den folgenden Seiten.

Achtung: Die Dichtung darf nicht zerlegt wer-
den, da sie dadurch zerstört wird.

Note: The procedure on this page and up to and including page 11 should only be used if deposits like calcium, iron dioxide, etc. are to be removed from the shaft.

Hinweis: Die Vorgehensweise auf dieser Seite bis einschließlich Seite 11 ist nur zu verwenden, wenn die Welle von Ablagerungen wie Kalk, Eisendioxid usw. gereinigt werden muß.
